

NEW PRODUCT ANNOUNCEMENT!

Encaustikos® INTRODUCES WAX SNAPS®!

Wax Snaps® offer a professional 40 ml encaustic wax paint in a very versatile shape. Each Wax Snap® measures approximately 1-1/4" x 4" and 1/2" thick. This unique shape allows you to use the whole bar or break off a section with a simple snap. Available in all 88 colors including our new Pyrrole Red and Graphite, plus 3 wax mediums: original, XD and our new Natural Yellow Wax Medium. Wax Snaps® are great for printmaking techniques, direct melting on a hot palette or snapping off a section to refill a Hot Cakes® tin.

Wax Snaps® are the same professional formulation used in our Hot Cakes® and Hot Sticks®. We use US Pharmaceutical Grade Beeswax, Damar Resin, and the finest pigments available and mill to perfection. Highly pigmented, our paints can be used straight or diluted with wax medium to create glazes or to extend your paint.
